

Project
Last Mile

Improving Public Health Systems Across Africa

Project Last Mile (PLM) uses the Coca-Cola system's **logistic, supply chain**, and **marketing** expertise to help improve health systems across Africa in a sustainable way

Working Across Country Contexts

South Africa

Improve access to **chronic medications** and decongest health facilities by creating alternative medicine **Pick-up Points**

Mozambique

Optimize the **delivery network** for pharmaceuticals while improving **logistics management capacity**

Nigeria

Improve the capability to manage the **vaccine cold chain** using Coca-Cola's best practices and training

Gathering Best Practices

Assess Alignment

Convene Partners

Span Boundaries

Diversify Inputs

Administrators

Evaluators
